30 th anniversary of the Order of Malta Relief Organisation in Lithuania	19		

Bronius Einars,
President of the Organisation

“

2021 for the Maltesers was the jubilee year - the Organisation celebrated its 30th anniversary. The Order of Malta Relief Organisation in Lithuania was officially registered in Lithuania on 29 October 1991. It was founded by bishops Juozas Tunaitis, Jonas Boruta, priest Vaclovas Aliulis and others with a view to having a

Catholic charity organisation in the country, which would be guided in its activity by the values of the Order of Malta, and would provide assistance for people of all races, religions and nations. The history of our organisation started at the same time as the restoration of our country's independence. The first year of the existence of the Organisation are remembered by its veterans as particularly difficult: the blockade of Lithuania, that was imposed by Moscow, was crippling the country's economy, corporate bankruptcies resulted in increasing unemployment rate in the country, there was a lack of the simplest household and medical supplies. But the Maltesers managed to do a lot already in the first year of the activity of the Order: 2 social canteens and a pharmacy were established, active assistance was provided for hospitals, retirement homes for the elderly and children's home, as well as to schools. Volunteers were teaming up in Lithuanian cities and towns on the basis of voluntary activity under the flag of the Order of Malta in order to help the state, that was undergoing its restoration and facing social and financial difficulties at the time.

During the first year of the existence of the Order of Malta Relief Organisation in Lithuania, 12 groups of the Maltesers, that united 116 members, were established. Today, we already can boast about the statistics of the 30 years of our activity, that speaks for itself: we have

2000 volunteers in 42 areas of the country, we feed and care for 2,800 elderly people, in 2021, the first care home Relief Organisation in Lithuania was opened, we have established 16 day care centres for children, we started providing a new escorting service for young people from care homes and families at social risk, and when we gave a ride to people with disabilities and the sick ones we travelled a distance that would be enough to engird Lithuania 98 times

The numbers were not the only thing that was growing during 30 years of the activity of the Organisation – special situations occurring in the country also dictated the necessity of taking new actions. In 2021, in addition to the challenges of the pandemic, participation in the vaccination processes, the Maltesers were also entrusted with providing assistance at a time the state was eliminating the consequences of the crisis of illegal migration across the Belarusian-Lithuanian border, and, at the end of the year, integration of the refugees from Iraq, Syria, and Afghanistan was started.

Below is the 2021 activity report of the Maltesers for more detailed familiarization with the situation of the Organisation.

Thank you to the Maltesers and sponsors for the wonderful work that we perform together. I believe in our community, in our mission and the values that we profess. I believe that we all together can do a lot of things.

The Order of Malta Relief Organisation in Lithuania (hereinafter – the Maltesers) is a part of the Order of Malta, the oldest organisation, that has been carrying out charitable activity around the world for more than 950 years.

ASSISTANCE FOR ELDERLY PEOPLE

ATTENDING ELDERLY PEOPLE AT THEIR HOME

All kinds of voluntary assistance at their home are provided for elderly people who are in better health and do not need supply of hot meals. After a volunteer and the person under his or her care become friends, a friendship between two people develops. They become like family members, and the volunteer takes over part of the household tasks, which the elderly person can no longer perform because of the illness or for other reasons. When the volunteer comes to the home of the elderly person, he or she communicates with the elderly person, pays bills online, orders foodstuffs, brings the food, the medicines he or she bought, helps in cooking, in managing the household, environment (firewood, garden, etc.), escorts to medical institutions, cemeteries, house of worship, congratulates the person under his or her care on the occasion of public holidays and other celebrations, the volunteer and the elderly person celebrate together, when the elderly person gets sick, the volunteer attends him or her in the medical facility, and they even travel together, attend events.

Such activity is carried out in almost all groups of the Maltesers, assistance is provided for

In addition to the pandemic, the year 2021 brought a new crisis – migrants who illegally crossed the Belarusian border.

Once again, we were able to prove that the non-governmental sector is ready and able to provide quality assistance for the State institutions in dealing with emerging crises. It is good to see the dialogue that is growing stronger and mutual understanding about crises that affect all of us, and how fast we are able to get mobilized in search for solutions.
